

Nitrile 5.5 Powder Free Gloves Medical Grade

■ SDS-05511-4

Product Description

Our **Nitrile 5.5** gloves are thicker and more durable than standard alternatives. These robust gloves are great for tough tasks, offering certified resistance against chemical splashes, bacteria, fungi and viruses. **Nitrile 5.5** gloves are ideal for use across many industries - from automotive and manufacturing to food processing and lab work.

Product Details

- Robust nitrile offers enhanced durability in comparison to standard alternatives
- Micro-textured fingertips provide excellent grip
- Ideal for being worn underneath working gloves
- Low chemical contact use
- Soft nitrile formulation provides a comfortable fit that moulds to the shape of the hand
- Protects against bacteria, fungi and viruses
- Non-sterile
- Tensile strength - 6 newtons

Technical Information

Glove Weight:	5.5g +/- 0.5g
Sizes:	S / M / L / XL
Packaging:	100 gloves per dispenser / 10 dispensers per case
Sold As:	Cases

Features & Applications

Single Use Only
Do Not Reuse

Suitable for use
with food

Product is free
from powder
