CAREFULLY READ THESE INSTRUCTIONS BEFORE USING THIS PRODUCT

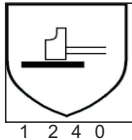

This product is designed to minimize the risk of / provide protection against general mechanical risk. However, always remember that no item of PPE can provide full protection and care must always be taken while carrying out the risk - related activity.

PERFORMANCE AND LIMITATIONS OF USE-These products have been tested in accordance with EN407:2003, EN388:2003, EN420:2003 and have achieved the following performance levels.

EN407:2004

EN 388:2003

Property	Performance Level Achieved	(Maximum Performance level)
Abrasion Resistance	1	-4
Blade Cut resistance	2	-5
Tear Resistance	4	-4
Puncture Resistance	0	-4

Note: The EN 388 performance levels achieved only apply to the palm of the hand. These gloves will not protect against chemicals and very sharp objects which impact the hands with great force or speed. They will not prevent crushing injuries associated with vibration. This product is not suitable against steam or hot liquid. It is not permanent protection against fire or heat.

Due to the high tear resistance of the glove, it is recommended that this product is not used by moving machinery.

FITTING AND SIZING

Only wear products of a suitable size. Products which are either too loose or too tight will restrict movement and will not provide the optimum level of protection. The size of these products is marked on the glove and they are available in the following sizes.

Glove sizes available: 9 (Large)

STORAGE AND TRANSPORT

When not in use, store the product in a well ventilated area away from extremes of temperature. If the product is wet, allow it to dry fully before placing into storage.

INSPECTION BEFORE AND AFTER USE: If the product becomes damaged it will NOT provide the optimum of protection and must be discarded and replaced. Never use a damaged product. If in doubt consult the manufacturer.

CLEANING: The performance levels quoted are for products in an as new condition. This product can be machine washed at 40 degrees centigrade. Do not use chlorine bleach. Do not tumble dry. Do not dry clean or remove stains with solvents. Dry naturally after pulling to shape whilst wearing on the hand.
