Kutlass® K9F-XC

Leather faced cut and heat resistant glove, with extended cuff

The Kutlass K9F-XC is leather faced cut level F glove made using highly specialised mixture of HPPE, Stainless Steel, Polyester and Spandex. It achieves a maximum ISO Level F cut resistance rating which extends down to the lower arm thanks to the extended cuff, the glove coming in at a length of 30cm from tip to cuff. The high quality split leather face of the glove offers excellent resistance to cuts, punctures and abrasions whilst providing excellent grip in wet or oily conditions. A very popular style of glove when working with metals or in the waste industry. The leather palm has a reinforced thumb crotch to strengthen the glove in an inherently weak area, vastly increasing the life of the glove by up to 30%. Suitable for contact heat up to 100 degrees Celsius.

¹ Testing carried out on the palm material. Except in cases where the glove is equal to or over 400mm - where the cuff is tested also tested. ² 'X' denotes Not Tested. ³ Where applicable, EN388:2016 scores take precedent and are ongoing. There is no correlation between coupe test levels and ISO 13997 / TDM cut test levels. Where both EN388:2016 and EN388:2003 scores are shown, the latter is shown for informational purposes only.

FURTHER INFORMATION

STORAGE / TRANSPORT: Keep away from direct sunlight; store in a cool dry place. Keep away from ozone sources or naked flame. Store the gloves in their original packaging. During transportation, ensure the product is well packaged and protected in order to prevent any damage.

PRECAUTIONS BEFORE USE: 1. Never use these gloves with chemicals. 2. Gloves should not be used when there is a risk of entanglement with moving machine parts. 3. Before usage and periodically during usage, inspect the gloves for any defects or imperfections. Avoid wearing damaged, dirty or worn out gloves. 4. The gloves should not come in contact with a naked flame or fire. 5. Do not subject to high speed or serrated blades. 6. Always read enclosed user instructions before using these gloves. 7. Whilst these gloves are highly cut resistant, they are not cut proof. 8. The information provided is for products in a new condition and does not reflect the actual duration of protection in the workplace. 9. Service life cannot be specified and depends on the application and the responsibility of the user to ascertain suitability of the glove for its intended use.

CONSTITUENTS / ALLERGIES: Some gloves may contain ingredients which are known to be a possible cause of allergies in sensitive persons who may develop irritant and/or allergic contact reactions. If an allergic reaction should occur seek medical advice immediately. This model does not contain any substances at levels that are known to, or suspected to, adversely affect user hygiene or health.
